

# Peak Prep Principal's Update

OCTOBER 16, 2020

## DEAR FAMILIES,

Our fall testing window is now complete, and our data team is carefully evaluating each student's scores. If your student is in TK-5th grade and did not complete testing, their teacher will be reaching out to you soon to schedule a makeup testing event. If your student is in grades 6-12, they will see that a placement exam has been added to their course load. Please ensure that your student takes this placement exam. The data we receive will help us ensure that your student receives the support they need.

## STUDENTS IN GRADES TK-5:

Based on Diagnostic results, *i-Ready* reports provide detailed information on student performance by domain, clear instructional recommendations, including a personalized instructional path, and aggregate data for spotting trends across groups of students.

Analyzing data and planning the next steps for instruction are important steps in meeting your students where they are. Recognizing growth, progress toward goals and areas for improvement closes gaps and increases student achievement.

## STUDENTS IN GRADES 6-11:

Based on the results of the student's Rasch unit scale score (RIT) score from the MAP® Growth™ assessment, Edgenuity's learning management system recommends an Individualized Learning Path (ILP) that provides high-interest, age-appropriate instruction for each student. These ILPs target the skills and concepts each student is ready to learn, regardless of grade level or class. An Individualized Learning Path (ILP) is a sequence of lessons that provide intervention, reinforcement, or enrichment for students in reading and math.

Each ILP features direct instruction videos, interactive tasks, activities, and robust practice with immediate feedback. All mathematics paths further adapt instruction dynamically by allowing students to move past any content they have already mastered via pre-testing at the lesson level.

## STUDENTS AT OR ABOVE GRADE LEVEL

### **Grades TK-5:**

Your teacher will be offering your coursework to reinforce or enhance your learning.

### **Grades 6-12:**

Your students have been assigned 2 ILP courses. These courses are year-long and worth 2.5 credits each (if completed). Working in these courses is optional but strongly encouraged.

## STUDENTS BELOW GRADE LEVEL

If your student has scored below grade level in math, reading, or both subjects, we will be in touch regarding the next steps. We want to ensure that our students have sufficient time to work in their ILP courses to make progress towards grade-level standards.

## OUR COMMITMENT

We are committed to your student's academic success and devoted to ensuring that each student has the support they need to succeed.

Regards,

**Mrs. Sabrina Ciolino**

**Principal**
